Noblis Receives 2010 National Capital Business Ethics Award

FALLS CHURCH, Va.—October 29, 2010—The National Capital Chapter of the Society of Financial Service Professionals announced that Noblis is a winner of the 2010 National Capital Business Ethics Award (NCBEA). This award recognizes businesses which exemplify a strong commitment to business excellence and to the highest standards of civic and social responsibility, integrity, and ethical conduct. The award was presented to Noblis at the Society's 10th Annual Gala Awards dinner on October 28, 2010.

Noblis was chosen for this award from an initial nominee list of nearly 100 companies with offices in the National Capital area. The awards program culminated in the selection of one winner for each of four categories: micro, small, medium, and large companies. Noblis' award was in the large company category, a category reserved for companies with over 250 employees.

NCBEA winners were chosen by an independent panel of judges using eight ethics-related criteria that measured each organization's commitment to sound ethical business practices in management philosophies and daily operations. The winning companies were organizations that clearly demonstrated that ethics are a living part of the company's philosophy, culture, and everyday business operations.

"Being selected for this award is a great honor," said Amr ElSawy, President and CEO of Noblis. "Our commitment to ethics is the foundation of our corporate culture and a core value that we deliver to our customers. We are proud to be recognized for our efforts."

About Noblis, Inc.

Noblis is a nonprofit science, technology, and strategy organization that helps clients solve complex scientific, systems, process, and infrastructure problems in ways that benefit the public. Noblis brings the best of scientific thought, management, and engineering know-how in an environment of independence and objectivity to find solutions that are practical, forward thinking, and sustainable. Noblis works in essential areas, including national security, transportation, healthcare, environmental sustainability, and enterprise services. Further information is available at noblis.org.
